

Bm3

Model	Bm3	Battery Type	Li-ion	Max Trust	330N(75.0lbf)
Use	Technical	Voltage	36V	Max Speed	85m'/(278ft/')
Lenght	790mm(31.10")	Power	26.8Ah	Range Max/Cr/Min	100'/200'/300'
Ø Body	210mm(8.27")	Nominal Capacity	1000Wh	Max Deep	200m(656.17ft)
Ø Conveyor	335mm(13.19")	Dry Battery	Yes	Water Temperature	-5/+35°C (23/95°F)
Material	Marin All.-Abs	Cut Off + Alarms	Yes	Software	"Pilota 5"
Total Weight	22kg(48.5lb)	Residual Battery	Ext.View./Batt.View.	Way of Use	Linear/Sequential
Closure	Central screw	Battery Charger	90-240V 50-60Hz	N° Speed	5
Price	€ 5000+Tva	Charging Time	7h	Acceleration Ramp	Programmable
				Motor	Brushless

Options

Note:

Duration varies depending on the speed , the position and the equipment of diver , and is misured in continuos ignition.
 Duration is specified at max. speed 100% - cruise speed 50% - min speed 30%
 Maximum speed is with the aid of standard propeller with 3 blades and the load of an average diver with double tanks 12+12.
 Way of use is choose with the aid of software "Pilota 5" and may be Linear or Sequential.
 Neutral trim in fresh and salt water obtained by placing two different weights.
 Price is VAT and shipped excluded. Price is valid for EU Countries. Price out EU call direct dealer or our sales service.
